

BK030020

Product Description: Temporary Lifeline System

Features

- Portable static line system
- Allows freedom of movement up to 20 metres
- Designed for a maximum of two persons
- Simple and easy to install fall arrest protection
- Ideal for situations which do not justify a permanent safety system
- Use in conjunction with retracting lanyards and full body harnesses
- Installation takes about 3-5 minutes
- No special tools are required to install or tension the system
- Weight: 6.5kg

Material and Construction

- 25 metres of 16mm superbraided rope
- 1 x rope vice tensioner
- 2 x 2200kg sewn 1.2 metre slings
- 2 x 10mm steel karabiners
- 1 x PVC storage bag

Application and usage

- For use as a horizontal fixed safety line to prevent falls when working at heights on construction, building and mine sites
- Attach above head height
- Note: Minimum height for installation

Testing and quality control

- 100% visual and working inspection
- Individual components batch tested to destruction
