

VeriShield™ 100 Steel Wire VS130, OTH

Product description

VeriShield 100 passive earmuffs enhanced hearing protection with optimum comfort, makes them solutions they will want to wear.

FEATURES

- Cushion Headband with lightweight steel-wire construction and resilient textile padding.
- Internal Cup Baffle Design® is the patented built-in sound stabilizer structure designed to enhance the stability of the cup and controls how sound reaches the ear. Ensuring optimum noise attenuation across all frequencies.
- Wider cup opening - cup opening area increased by 16%, ideal for workers with larger ears profile, or who wear hearing aids.
- Memory foam ear cushions that combines denser and softer foam, reduces pressure on the head for greater comfort and attenuation.
- Air Flow Control Technology (AFC) delivers optimal attenuation, allowing smaller earcup to have higher attenuation.
- Manages flow of air in and out of ear cushion acting as a "shock absorber" for earmuff.
- Easy to use snap-in ear cushions for quick and easy maintenance.
- Robust construction.
- Resilient cup cushions last up to 12 months, reduce crack and deformity.
- ABS moulded and hot stamped surface finish cup, withstand oily, heavy-work environments and frequent cleaning.

APPLICATIONS

- Noise environments between 105 to less than 110dB(A).

Technical Details

Material:	Headband-PU/Foam/Steel Ear Cup-ABS Ear Cushion-PVC/PU Foam
Hygiene Kit:	1035138-VS
Headband Force:	11.3N
Weight:	285g

Standards

- Approved by AS/NZS 1270:2002
- License number 1133
- SLC80 32dB Class 5
